

COURSE: EDEXCEL GCSE 1ST0

We are offering GCSE Statistics as an optional extra subject in the academic year 2022-23.

The course runs for 1 year and is taught entirely through after school sessions.

We aim to enhance understanding of data and to develop the associated transferable skills. The exam board says: *“students are introduced to the skills of statistical enquiry, and practise the underpinning statistical calculations and interpretation using real world data and authentic contexts.”*
