Exploring Green Careers In Engineering & Technology – 7th November 11-12pm

Detailing this session as you can hopefully view on Demand.

In partnership with *British Airways*, students will explore a range of green engineering and technology careers. It will highlight the importance of green skills and showcase the technical and apprenticeship pathways available—prestigious routes that offer hands-on experience and the chance to make a real impact in protecting our planet and positively shaping the future. **[Register Here](#)** **Speakers:**

Anil - Climate Change and Environment Manager at British Airways

Viktoria - Planning and Supply Chain Graduate at British Airways

Melissa - Senior Emerging Talent Manager – Attraction and Recruitment at British Airways

To find out more information and see all upcoming events visit [Upcoming events - WorldSkills UK](#).

Exploring Green Careers In Engineering & Technology With British Airways

7th November Thursday 11-12pm

In partnership with *WorldSkills UK* and in celebration of *Green Careers Week*, students will explore a wide range of green engineering and technology careers. The session will highlight the importance of green skills and showcase the technical and apprenticeship pathways available through the speakers from *British Airways*. You will be joined by: Viktoria – Planning and Supply Chain Graduate at British Airways: After graduating with a History degree from Exeter University in 2023, Viktoria found herself working in engineering. In just one year, she's gained experience in Supply Chain, Outsourced Maintenance, and even spent time in the hangar.

Anil – Climate Change and Environment Manager: With 15 years in aviation sustainability, Anil has worked with airlines, the United Nations, and universities. His focus is on helping airlines decarbonise and assessing climate risk in the aviation sector. Apprentice – To be announced. To join the session. **[Register Here](#)**

Green Jobs Careers Videos

WorldSkills UK brought together the UK's leading employers and apprentices to inspire young people from all walks of life to consider the vocational pathways which will lead them to green careers.

As climate change and environmental concerns top the social, political and youth agenda, there was a focus on green jobs in the fourth series of **Spotlight Talks**. The government's ambition to create 2 million jobs in the green economy by 2030 is an exciting opportunity for young people to develop skills which will help accelerate the UK towards net-zero. The free online video sessions are broken down into 30-minute slots with industry and apprentice speakers.

Examples of the topics explored include:

The switch to electric vehicles and how it will revolutionise the skills needed in the automotive industry

New methods of designing and building houses to be more energy efficient is opening up new routes into the construction industry

How STEM skills are fundamental to addressing the challenges of climate change.

Click [here to sign up](#) and start using these videos.

Amazing Apprenticeships

AA have created an inspiring film featuring a wide range of apprentices in green roles, from organisations including *Amazon*, *GEA* and *Leonardo*. The film aims to inform and inspire future generations about the incredible opportunities that apprenticeships offer in the green space. [Click here](#)

Local Opportunity

Price Bailey Apprenticeships – Audit/Accounts/Tax

Price Bailey have just gone live with their summer 2025 roles, which can be [accessed here](#)

They will be holding assessment centres for this vacancy in January, February and potentially into March and encourage interested students to apply as soon as possible to avoid disappointment.

Price Bailey will be visiting TBSHS on 26th November to host a lunchtime Careers Workshop – and they are hosting an Open Evening on 4th December at their Bishop's Stortford offices – see below.

Apprenticeships

***Students with a Unifrog log-in can see all
apprenticeship listings, on-demand webinars & more
Students should research the many apprenticeship websites
(Amazing Apprentices, Springpod, Uptree, Success at Schools etc) and
if they haven't already, register with the government website, [click here](#)***

Maisie – A Financial Times Newsroom Apprentice

Maisie's journey into journalism shows the pathways available for aspiring writers. A great story for those interested in media careers. [Click here](#)

The webinar will highlight the importance of green skills and showcase the technical and apprenticeship pathways available—prestigious routes that offer hands-on experience and the chance to make a real impact in protecting our planet. [Register Here](#)

Career Days

There are new dates available for your students to attend career days online taking place online over the next couple of months. Career Days give students an insight into different careers that might appeal to them, advice on subject choices and how to apply to university, followed by work experience in the afternoon to help them see what the career may be like. Students receive a certificate confirming their work experience.

Students who are aged 13-18 can register to join the online days by visiting www.careerdays.co.uk

The schedule is as follows:

Vet Career Day - Saturday 9th November 2024

Computer Science Career Day - Saturday 23rd November 2024

Engineering & Technology Career Day - Saturday 30th November 2024

Students can visit www.careerdays.co.uk to join a session that interests them and will receive a certificate at the end of the day confirming their work experience.

Employment at Stansted Airport (Owned By Manchester Airport Group - MAG)

For vacancies at Stansted Airport, sign up to the Employment Academy; many fulltime and part-time opportunities available. Email Employment.Academy@stanstedairport.com

Year 13 - With Unifrog Log In

Here's an overview of some of the upcoming *Unifrog* events:

All Years - New Careers Quiz

Here is *The InvestIN Career Quiz*! By answering a series of expertly crafted questions, students unlock a personalised report that unveils an industry aligned with their skills and interests. [Click here](#)

BBC Bitesize

BBC Bitesize have some great advice from leading careers experts and over 350 job case studies from people who've found the right path for them. [Click here](#) for the home page. Check out *Where could your favourite subject take you?* *Explore careers by job sectors* and *Careers A-Z – Find your Perfect Job*.

Careers Website

Explore and find out about careers using this website – lots of useful tools. [Click here](#)

A Guide to Career to Options 2024

This guide is full to the brim with career and application advice for students. You can download the online version of the free guide [here](#).

Careers Unwrapped

Careers Unwrapped is a podcast series where accomplished industry leaders share their career stories, advice and reflections to inform and inspire young people.

All Years - Careers Fairs

From *UK Careers Fairs*, here's a list of Careers Fairs taking place in many major cities in England. [Click here](#) Also from *UK Careers Fairs* are these useful box links. [Click here](#)

Potential – Career Sense

Students will receive personalised information on future careers they may want to pursue, based on their strengths and what they enjoy. The resources help students develop self-awareness and confidently start to think about career next steps. **Register now to download the resources.** [Click here](#)

Careers Websites

When free, do take a look over the *All About Careers* website as there's lots of information to digest regarding careers, [click here](#)

Find Out More About Individual Jobs

For snapshots into the world of work, visit the *icould* website to explore hundreds of videos about different jobs - search by filters such as job type and school subject. [Click here](#)

Begin! - Careers Guide

University of Nottingham has just launched a new careers guide called *Begin!* Whilst this is targeted at university students, it may also be relevant for sixth form students. Wherever students are with their career journey, this is the place where they can begin. [Click here](#)

Resources – For Background Knowledge & Wider Reading

From The Royal Society Of Chemistry

The Royal Society of Chemistry has lots of resources and although primarily for teachers, there may be useful content for students for EPQs etc. [Home page here](#), and see the resources and enrichment tabs - plus How chemistry is shaping the future, [click here](#)

EDT Courses

***Applications are now open** for the hugely popular **Residential Insight into University Courses.**

These are summer schools at various top Universities that run over 4 or 5 days where students get a taster of university life and an insight into a specific STEM subject. Students will get the opportunity to experience university style lectures and work on activities and group projects with the support of academics and student mentors. Students will stay in halls of residence and will take part in social activities in the evenings, so that they get the full university experience. **For Year 12 students. Courses taking place June-Aug 25**

Accreditation: Silver Industrial Cadets Award

***Applications are now open** for the **YINI–Year in Industry Placement scheme**

An EDT placement will give students an opportunity to continue their STEM journey after leaving school or college and take a paid gap year to help inform and shape their future career choices. They will gain invaluable experience working in industry, develop their skills and knowledge, and boost their future employability. We have vacancies with companies across many areas of STEM from leading FTSE 100 companies to small innovative start-ups. EDT placements are accredited at Industrial Cadets Platinum level meaning that the student's experience during their year in industry is quality benchmarked and recognised industry-wide.

For Year 13 students. Placements will start July/Aug 25

Accreditation: Platinum Industrial Cadets Award

King's College, London: Medicine & Dentistry Lecture Series

Applications for the **online King's College London Medicine and Dentistry Lecture Series 2025** are now open. This free programme is for students **across the UK in Year 11, 12, and 13** interested in becoming a **doctor** or **dentist**.

Over the course of the programme students will hear from a wide variety of speakers to help build their understanding of the **opportunities** and **challenges** of being a doctor and dentist, as well as guidance on the application process. Last year's lectures included the following:

Medical and dental specialties: cardiology, oral surgery, renal transplant, and many more!

Q&A's each week with current medical and dental students.

Support with the application process: UCAT, personal statements, and interviews.

Q&A with admissions colleagues in the school of medicine at KCL, UCL, St George's, Queen Mary, Brunel, and Imperial.

Most importantly participants will become **part of a community of like-minded students** all interested in applying to medicine and dentistry and finding out what being a doctor and dentist really entails. Lectures will be held on

Tuesday evenings between 6:00 – 7:30pm, and the first lecture will be on Tuesday 4th February. For more

information and to apply, [students should follow this link](#). The deadline is **Friday 10th January**. ***This would look great on a future Personal Statement***

Prospective Medics/Healthcare Workers

You might be interested in giving *Illuminated* a listen on BBC Sounds. Broadcast a few Sundays ago, the programme focuses on a group of 17 year olds volunteering in their local hospice; fascinating listening and an insight into hospice care – excellent experience for prospective medics/healthcare workers. [Click here](#) ***Don't forget the Medic Portal for excellent advice, guidance & info*** www.themedicportal.com

Resources From Balliol College, Oxford

Admissions Support

We have compiled a list of relevant support and resources for the Oxford admissions process. You can find our [Interview Resources](#) attached to this original email, or by sharing the hyperlinks used here. If you missed our recent Online Open Evening for Balliol's Y12 Access Programmes, you can find a recording [here](#).

[Connect - Interviews 2: Subject Practice](#) - The 15 November session will focus on practicing interview questions with subject Ambassadors in small break-out rooms. There will not be a talk or presentation, so please do come prepared to tackle questions. Remember that the student

Ambassadors are extremely friendly and helpful, and they will offer you a lot of guidance to help you prepare, so do make the most of this opportunity to practise. This session would be helpful to anyone applying to Oxford or Cambridge.

When? 15 Nov 2024

Booking opens on Friday 30 August and closes on Friday 8 November at 5pm.

UNIQ - University of Oxford UNIQ is one of Oxford's largest access programmes, which supports around 1000 state school students from disadvantaged backgrounds each year. Places are prioritised for students with academic potential who have ever been in care, have been eligible for free school meals, and/or who live in areas associated with lower socio-economic backgrounds.

When? April 2025

Applications close on 23 Jan 2025

Year 12 Sustained contact programmes

Balliol has three sustained contact programmes for Year 12 students from UK state schools. These have been highly successful in supporting participants, many of whom have gone on to successfully make applications to competitive universities. With several of these currently studying with us here at Balliol at both undergraduate, and post-graduate level.

The Floreat programme is designed for students who aspire to study a Humanities degree. Frontier is for those interested in Life Sciences.

Fibonacci focuses on Mathematics and related fields. All of these programmes are designed to academically challenge those interested in applying to competitive universities.

Information on our 2025 Programmes:

[Please see our website for details.](#)

If you missed our recent Online Open Evening, you can find a recording [here](#).

If you would like to apply to one of our programmes, please use the links below.

The event will include a guided talk, an interactive workshop and panel Q&A with current undergraduates. This is an opportunity for prospective applicants to hear first hand about what studying Physics at Oxford is really like.</p> <p>When? 23 Nov 2024</p>			

<p>Booking closes on Monday 18 November at 5pm.</p> <p>Materials & Physics Day - Year 12 University of Oxford – This in-person event is designed specifically for Year 12 students who are considering applying for Physics and Material Sciences at Oxford. The event will include opportunities to participate in experiments and hear from academics at guided lectures. School groups are encouraged to apply, with a maximum group size of 6 students per day.</p> <p>When? 11 Dec 2024</p> <p>Booking closes on Wednesday 30 December at 5pm.</p> <p>It All Adds Up 2025 University of Oxford – This in-person event is designed specifically for female-identifying and on-binary students. Whilst the application deadline has passed for Years 9-11, applications are still open for Year 12. This event will feature guided talks, workshops and Q&As with current undergraduates. This session would be of interest to students applying for Mathematics, or related subjects.</p> <p>When? 15 Jan 2025</p> <p>Booking closes on Saturday 2 November at 5pm.</p> <p>Fibonacci (Maths) Access Programme Application Form 2025 - Balliol has three sustained contact programmes for Year 12 students from UK state schools. These have been highly successful in supporting participants, many of whom have gone on to successfully make applications to competitive universities. With several of these currently studying with us here at Balliol at both undergraduate, and post-graduate level. Application deadline is Sunday 24 November 2024.</p> <p>Frontier (Science) Access Programme Application Form 2025 - Balliol has three sustained contact programmes for Year 12 students from UK state schools. These have been highly successful in supporting participants, many of whom have gone on to successfully make applications to competitive universities. With several of these currently studying with us here at Balliol at both undergraduate, and post-graduate level. Application deadline is Sunday 1 December 2024.</p> <p>Super-Curricular Resources for Students</p> <p>Our Springboard videos are designed to introduce students to a range of topics related to A Level and Degree Level study. Each has been designed and produce by our graduate students and each contain activities and suggestions about further resources to explore the subject. Please note we will be adding more videos on a rolling basis. Students need to answer a few short questions to access each video.</p> <p>Our Insight recordings are now available online. This series of talks is aimed at post 16 students with an interest in science. Each talk was given by an Oxford University post-graduate student, giving the audience an insight into their particular research specialism. Passionate, motivated KS4 pupils looking to challenge themselves academically may also find these talks interesting.</p> <p>These subject specific super-curricular guides which are available for most A Level and GCSE subjects, contain suggestions for exploring subjects further by watching, reading, listening and doing. Please tell us about any suggestion you have to add to these guides.</p> <p>Oxford University Digital Resource Hub – here you can find the best of our digital resources to support learning and exploration. They can help parents and teachers to feed the curiosity of growing minds and inspire them to think broadly.</p> <p>Videos from Balliol College</p> <p>Balliol College's Admissions Video, highlights what our students think about college life and why Balliol may be the perfect choice for Oxford applicants.</p> <p>In this video, Balliol tutors talk about undergraduate study, sharing insights into how tutorials work as well as the qualities they are looking for in prospective applicants.</p> <p>In this video, a third-year medical student gives prospective applicants a tour of Balliol, showing the Lodge, Library, Hall, Chapel, Junior Common Room and quads as well as undergraduate accommodation at the Broad Street site and in the new accommodation blocks at the nearby Master's Field site.</p> <p>Oxford Mailing Lists</p> <p>Subject specific mailing lists operate for Chemistry, Classics, Computer Science, English, Engineering, History, Maths, Materials Science (Teachers), Materials Science (Pupils), and Modern Foreign Languages</p>

BBC Archive – Sounds, BBC World Service & IPlayer

Don't forget the vast BBC Archive with thousands of programmes on all subjects which might be an excellent source of research/background reading eg *Inside Science*, *Science In Action*, *Tech Life*, *Arts & Ideas*, *Free Thinking*, *Being Roman*, *Composer of the Week*, *A Brief History of Mathematics*, *Maths and Magic*, *All In The Mind*, *The Law Show*, *Law In Action*, *Reith Lectures* and many more!

Imperial Outreach

Year 12 mA*ths and Further mA*ths Online Programmes 2024/25 Applications Now Open

The mA*ths and the Further mA*ths Online Programmes (supported by the *Hg Foundation*) aim to support A level Mathematics and Further Mathematics students who are considering studying a numerate degree at university.

Build your confidence and develop the skills needed to achieve an A* at A Level. Students on the programmes will be provided with tailored online support and attend two masterclasses with Imperial academics.

To find out more about the programmes, eligibility criteria and how to apply, please visit the mA*ths [Online Programme](#) webpage and/or Further mA*ths [Online Programme](#) webpage.

As these programmes are mostly online, Imperial encourage applications from students nationally who live outside London. **Applications will close on Tuesday 12 November.**

For any queries please contact mathsonline@imperial.ac.uk.

Year 10 & 12 STEM Futures Programme 2024/25 Applications Open this October

STEM Futures is a multi-year programme of activities and support for students of Black heritage who are interested in STEM (science, technology, engineering, mathematics and medicine).

This programme has been developed to support students to discover the wide range of subjects within STEM studies and to help them to get into university. Students can join the programme in either Year 10 or Year 12 and the programme is designed to be relevant at whatever point in their school studies that they start.

Find out more at the STEM Futures webpage.

Applications open for Year 12 on Wednesday 16 October and open for Year 10 on Wednesday 23 October 2024.

For any queries please contact stemfutures@imperial.ac.uk.

Smallpiece Trust

The Smallpiece Trust is an educational charity that inspires young people to pursue careers in science and engineering through events and workshops. For over 50 years, they have been giving young people everything they need to fuel their passion for engineering. [Find out more here.](#)

Mathigon

<https://mathigon.org/> - An interactive mathematical playground to explore.

What University? What Career?

Live on-demand video series. Using this brand-new video series, students can navigate the post-school options, find out how to get started with applications and avoid some mistakes; **free, on-demand, short videos.** [Click here](#)

Competitions, General, Ad Hoc

Young Reporter

Previously advertised, *The Young Reporter* Scheme has a competition deadline extension of 15th November. This would be a terrific thing to do if you are an aspirational journalists/sports writers

Top Tips To Support Students & Build Emotional Resilience

Sometimes it's tricky to know what you can do or say to help youngsters develop the confidence and adapt. *The National College* have put together this guide featuring expert advice, letting you know how to build emotional resilience in the children and young people in your care. Space For All Challenge Competition – King's College London

The Space 4 All Challenge is a competition inviting innovators, thinkers, and dreamers to propose solutions that make space travel and space exploration more inclusive and accessible for people with diverse needs.

At King's, there's a dedicated team of researchers and space enthusiasts (more [here](#)), who are passionate about making human spaceflight and space exploration accessible to all, with a special focus on individuals with physical and sensory disabilities.

Whether you are proposing new technologies to make traveling and living in space accessible; designing space habitats, clothes, or gadgets; sharing your innovative ideas through music/song; or sharing your reflections on what space and accessibility mean to you, they are keen to receive your submissions.

They work in collaboration with the *UK Space Agency* and the *European Space Agency*, breaking down barriers to make spaceflight more accessible for everyone. [Click here for more info](#) **Deadline: 3rd December**

UK FoNS Science and Innovation Competition 2025

For students of all ages with an interest in STEM. The **Faculty of Natural Sciences Science and Innovation**

Competition at Imperial returns. Open to teams of young people, they welcome entries from schools, community and youth groups. There is no limit to the number of teams that can enter and **registration is now open.**

Entry groups are 11 – 14 years old (KS3), 14 – 16 (GCSE) and 16 – 18 (A-level) or Open Category for teams of mixed age groups. The competition aims to motivate young people to engage with science, to encourage them to work

together as part of a team and to engage them in a fun activity that is motivated by their curiosity and drive. Teams are asked to develop a new and innovative scientific solution to help achieve one of the *United Nation's Global Goals for Sustainable Development*.

To enter, teams will be asked to create a 5-minute film that:

Briefly outlines the goal they have selected

Describes their innovative solution

Explains the science behind their idea

Illustrates how their idea would address the goal.

Initial entries will be judged by the team at Imperial and finalists will be selected and invited to participate in the finals at Imperial in April 2025. **Find out more and see details of last years final and competition winners.** Registration for entry will close on Friday 13th December.

If you have any questions please contact Dr Simon Foster

at ssfoster@imperial.ac.uk or fonsschoolscompetition@imperial.ac.uk

Years 7-13 Big Bang Competition

The Big Bang Competition recognises and rewards young people's achievements in all areas of STEM, whilst providing them with the opportunity to build their skills and confidence in project-based work.

The Competition is free, and is open to young people in the UK aged 11 to 19 who are in state funded education, home educated, or who enter as part of a community group.

Entries close on 26 March 2025 at 5pm, so you have plenty of time to work on a project. [More info here](#)

Years 7-13 goIT Monthly Challenge

The *goIT* monthly challenge will set students on the path to becoming the digital innovators of the future!

Every month students will directly engage with the *United Nations Sustainable Development Goals (SDGs)* by tackling a unique challenge. Students have the opportunity to develop an innovative tech-based solution that addresses the month's SDG. Students are encouraged to get creative and share their idea in a 3-minute video pitch.

The 3 winners of each month's challenge win a coveted spot on *TCSEmpowers*, will have their solution shared across social media platforms, and win a prize. [More info here](#)

From The IMA - Mission Space Lab Competition

Mission Space Lab offers teams of young people the chance to run scientific experiments on board the International Space Station. [Registration is open from 16 September 2024 to 24 February 2025](#)

From The IMA - The Mystery of the Silver Bullet - A mathematical mystery with £5,000 in prizes

The School of Mathematical Sciences at the University of Southampton has just launched [its 23rd national codebreaking competition](#)

If you are willing & able, do think about hosting a lunchtime careers workshop; they are fun and informal, plus a great way of providing insights into careers. Volunteers from the parent body are extremely welcome to host, as are alumni. Please get in touch claire.jonas@tbshs.org
