Career In Cyber With NCF (National Cyber Force)/NCSC (National Cyber Security Centre)

Established in 2020, the National Cyber Force (NCF) is a partnership between GCHQ, Ministry of Defence, Secret Intelligence Service (MI6) and Dstl (Defence Science and Technology Laboratory).

The NCF carries out responsible cyber operations on a daily basis to protect against threats to the UK, further the UK's foreign policy, support military operations, and prevent serious crime – disrupting and contesting those who would do harm to the UK and its allies.

Being a unique partnership construct, with each organisation bringing complimentary skills and expertise that are critical to their success, NCF believe by bringing together this uniquely diverse mix of minds that they can have a significant impact on a wide range of adversaries. [Click here for MI5 Apprenticeships](#)

Balliol College Oxford - Try Before You Buy Days 2026

In the Spring and Summer Terms, *Balliol College* hosts a series of free **Try Before You Buy Days** for disadvantaged prospective applicants. These sessions are aimed at UK state school students in Year 12, and provide the chance to engage with subject-specific Oxford style tutorials. Each day will feature an Oxford style tutorial, a guided tour of Balliol College from a current undergraduate student and a talk on the admissions process. A two course free lunch will be provided in the Balliol Hall. Participants will need to complete work in advance in order to take part in the tutorial session. Prospective applicants will only be able to attend only one Try Before You Buy event. These events are in great demand; therefore applicants must ensure that they are able to attend and are able to complete the work and return it by the deadline (which is usually a week before the event).

To find out more, and to sign up for an event, please see the list of Try Before You Buy Days on the Balliol website: [Outreach Talks and Events | Balliol College](#) **Closing April 19th although some of the events are imminent**

Online Event - Career in the Legal Profession.

Choosing between becoming a solicitor or barrister is one of the biggest decisions aspiring lawyers will make. So, Law Careers.Net have joined up with BPP University Law School to offer students an insight into both sides of the profession from those who've actually made the choice.

Reg link: https://lbresearch.zoom.us/webinar/register/8317737490510/WN_Uho2jm6SCqwRdoRQlo-Qw

So how can students figure out which path is right for them?

Join LawCareers.Net and BPP University Law School on **Thursday 26 March at 4:00pm** for a free online masterclass: 'Solicitor or barrister – how to choose'. They'll hear directly from solicitors and barristers and will:

- find out what the day-to-day reality looks like for solicitors and barristers (beyond the stereotypes);
- discover the skills each role actually requires – not just the technical knowledge, but the working style and personality traits that matter;
- learn how to assess which path aligns with your strengths, interests and lifestyle goals;
- know the questions they should be asking themselves before committing to either route; and
- hear honest answers to the concerns every aspiring lawyer has about this important decision.

Why this session is different

Students will hear from BPP University alumni who've gone on to secure careers as solicitors and barristers (or both). They'll share honest insights into what each path is actually like and how they knew which was right for them. **Meet the experts leading the session:**

- Charlotte Wanendeya – head of law, BPP London Central
- John Dove – criminal barrister (and former solicitor); founder of Speed Mooting and the Advocacy Club
- Jonathan Chibafa – barrister; founder and chief legal officer, Forge ESG
- Lyana Chan – former solicitor and barrister; Bar Training Course tutor at BPP Manchester

If you can't attend on the day, the recording will also shortly be available on their [YouTube channel](#).

NCSC (National Cyber Security Centre) Cyber Series Podcast – Five Episodes to Explore

Looking to build your understanding of the cyber landscape in a more accessible way?

The NCSC Cyber Series podcast offers a concise and engaging introduction to some of the most important topics shaping cyber security today.

Across five short episodes, the series breaks down complex issues into practical insights that anyone with an interest in cyber can follow. The episodes cover a broad range of themes: an introduction to the evolving cyber threat landscape, the growing role of artificial intelligence, the challenges of cyber proliferation, the move towards life beyond passwords, and the importance of incidents and information sharing. Together, they provide a well-rounded overview of how cyber security is changing and why collaboration and awareness are more important than ever.

Whether you're just starting to explore a career in cyber or simply want to strengthen your awareness of current threats and trends, these five episodes are a great place to begin. They're easy to listen to, grounded in real-world challenges, and designed to help you better understand how the UK is responding to an increasingly complex digital environment. [Click here to listen to the podcast](#)

Considering Joining National Cyber Force ? Learn About Developed Vetting (DV).

If you're thinking about joining the organisation, you may have come across the term Developed Vetting, or DV. It's the highest level of UK security clearance and is essential for roles that help protect some of the country's most sensitive information and capabilities. Understandably, it's a thorough process, and it's completely normal to have questions about what it involves and what it means in practice.

MI6, has produced a clear and engaging video that explains the Developed Vetting process and why it matters. It gives a helpful overview of what to expect, how the checks work, and how the process is designed to build trust rather than catch people out. It also highlights the importance of honesty, integrity and transparency — qualities that sit at the heart of working in national security and cyber defence. The video helps to address common misconceptions and provides reassurance about how professional and supportive the process is from start to finish.

If you're exploring whether a role helping defend the UK against evolving cyber threats could be right for you, we'd encourage you to watch the video below. It's a useful introduction to Developed Vetting and a practical insight into the level of trust placed in those who help safeguard the nation's security.

Road To Med

For Students

- RoadtoMed 2026 Free workshops series
- Sign up link here: <https://forms.gle/6SenQ3vqFvo4c5Db8>
- **First workshop TOMORROW on the 19th March 7-8PM** ('An applicant's guide to getting into Medical School')
- For the full list of workshops view it on the website [here](#)

What do the Free Workshops cover? you can view the calendar on our website [here](#). The 2026 series will cover

sessions ranging from UCAT teaching, Personal Statement guidance, Interview practice, UCAS strategy, experience building through Medical School lectures, Medical ethics debates and much more.

When do they start?

The first session of the 2026 Free workshop series was on Thursday 19th March, 7-8PM on the topic of '*An applicant's guide to getting into Medical School*'. Sessions will occur fortnightly on Thursdays from 7-8PM and continue from March till November.

Who are they for?

Primarily for students in Year 12. Other students are welcome to join if they are keen.

How does it work?

The sign up link [here](#) needs to be filled out by a student to then be added to our Free Workshop student list, you are sent Zoom Meeting links prior to each session. At the end of the session, students who have attended the session are sent a certificate and the workshop recording for further review. All sessions are delivered by current NHS doctors or UK medical students.

Who are RoadtoMed?

A growing and passionate community of educators and medical professionals. Team is made of NHS doctors and current UK medical schools covering schools including UCL in London and University of Glasgow in Scotland. Their mission is to bridge the gap of access to high quality information and support for getting into medical school which is a life changing event. Despite the pressures on the NHS, fundamentally, being a Doctor is a privilege and immensely rewarding career. You can find the website [here](#) for more details.

Engineering & Tech – EUK Education/Designed For Teachers But Still Useful

From gaming and sports to the environment and space, the engineering and technology industry is behind everything. It's one of the few sectors where young people can find a career that follows their passion, makes a difference and earns good money. 19% of all jobs in the UK are in the industry.

Apprenticeships, T Levels, degree apprenticeships... there are many technical routes into engineering. Discover more about all the routes in this comprehensive booklet, [click here for download](#).

Meet the Medic Online Webinar: For students in Years 10 to 13 interested in Medicine

Have you ever wondered what it is really like to be a doctor in London?

Following on from the success of 'Meet the Researcher', this new interactive webinar series will bring medicine to life. Meet the Medic Online Webinars will feature a different medical professional each month sharing their specialism, career path and day-to-day life as a doctor - and answering your questions live.

The first webinar will be Thursday 26 March 2026 at 16:30 - 17.30 pm and welcomes Dr Anu Mitra with stories from his time working in A&E. [Complete the registration form to take part in this online event.](#)

For any queries please email pathways@imperial.ac.uk.

Teach English

TEFL have launched a brand new **UK-TEFL Online Grammar Course** - a flexible, practical, and confidence-boosting way to master the core structures of English grammar.

- Whether you're a student looking to deepen your expertise or searching for a clear, effective way to help you build confidence in English grammar, this course is designed to support every stage of the learning journey. **Cost:** £39
- **Duration:** 30 hours of guided study with 60 days of access.

How it works: This is a self-enrolment course. You'll be automatically enrolled after purchase [via our website](#).

STEM Research Opportunity For Year 12 – Deadline Extended

STEMPOINT have extended our application deadline to the Research STEM programme. [The deadline for applications is now the 20th April 2026.](#)

They have partnered with companies such as Airbus, Cranfield University, the University of Bedfordshire, and the University of Hertfordshire to offer a wide range of projects this year. As well as the traditional STEM subjects, there are a number of projects in Finance, Business and Law. These projects will showcase range of social sciences, including Economics, Sociology and Criminology.

Undertaking a placement will inspire and motivate students and help give them the skills and confidence they need to get a place at a top university or secure a career boosting apprenticeship. Students in their first year of post-16 science, technology, engineering and maths (including social and data sciences) courses should apply.

Please note: To be eligible for a place on the programme, students must meet both of the below criteria:

- 5 GCSEs at level 5 or above
- Must be in Year 12 of studies and studying at least one STEM subject

They must also meet at least one of the below criteria

- Household income of £40,000 or Less
- Eligible for free school meals, at anytime in the last 6 years
- First in their family to attend Higher Education. This means neither of their parents/guardians have attended university
- Have lived or living in authority care
- Provide regular care or support for a family member due to illness, disability, age or with additional needs

More information on the scheme and how to apply can be found at: <https://www.stempoint.org.uk/research-stem>

From Imperial College, London School Teams Prize 2026 For students in Years 12 & 13

Now in its sixth year, the Science in Medicine School Teams Prize aims to encourage students to think outside of the school curriculum about how science and engineering can improve health.

It is a team contest, which emphasises the importance of multidisciplinary collaboration. It also encourages a holistic

approach with due consideration of the importance of affordability, availability and social acceptability of innovations, and has an emphasis on effective communication.

This year there are five contests, focused on:

- The heart and circulation
- Lung disease
- Cancer
- Mental health of children and young people
- Global health

To find out more and how to enter explore the [School Teams Prize webpage](#).

Entries close Friday 03 July 2026. For any queries email school-teams-prize@imperial.ac.uk.

From IMA - Schools Prize in the History of Mathematics

The British Society for the History of Mathematics (BSHM) has launched its Schools' Prize for 2025-26.

For 2025–26, the topic is Ethnomathematics. Entries may take any form—written essays, presentations, films, podcasts, songs, artworks, or other creative media. There are two age categories 11-15 and 16-19. [Enter here](#)

The deadline for submissions is Friday, June 19th.

From IMA – Prize Puzzle - A Puzzle from The Ladies' Diary (Woman's Almanack), 1755

The Ladies' Diary or Woman's Almanack was one of the world's first magazines for women. This amazing periodical contained serious mathematical problems and was a precursor to the scientific journals we find today. Here is a question which was posed by a reader in 1755.

Question 391 by Miss Maria Atkinson, proposed by her in 1755 (Addressed to Mr. E.P. who took the liberty to ask her age)

*"Five times seven and seven times three
Add to my age, the sum will be
As many above six nines and four
As twice my years exceed a score:
From hence, sweet Sir, my age explore."*

Q: What age was Maria when she wrote this puzzle?

Send your solution to mathscareers@ima.org.uk providing your name and school/. If you win IMA will ask you for a postal address. This time they just need an answer, no explanations or working out required. There is no age limit for entry, but you must currently be studying at a UK school/college/university in order to enter.

(Find out more about the [AMiE library](#). [Further Reading: 'The Ladies Diary': A True Mathematical Treasure](#))

Egg-Cellent Easter Science Quiz !

Designed as a teaching resource but a fun spring and Easter-themed quiz for an egg-citing end of term treat [Click here](#)

RSB Signs Of Spring Survey

The Royal Society of Biology, in partnership with the Field Studies Council, is inviting people across the UK to look out for ten key **Signs of Spring**, including bluebells, butterflies, frogspawn and many more.

[Fill in the form](#) to report when and where you saw each sign of spring and the weather conditions at the time. Your observations will help build a clearer picture of spring's progression across the UK. The survey will run from 5th January to 14th June.
