Special Announcements

Going To Study Chemistry At University?

Are you a Y13 student who has accepted a place to study chemistry at a UK university?

The Salters' Next Generation Chemist Award is open for applications now.

This awards £1,500 to a student heading off to university this autumn and £1,000 to their school/college science department, to continue their work inspiring the next generation of chemists.

The deadline to apply for the award is **30th April 2026**. Use the link below to find out more about the award and eligibility criteria. [Click here](#)

[Click the button](#) to explore the guide.

Smallpiece Trust

The Smallpiece Trust is an educational charity that inspires young people to pursue careers in science and engineering through events and workshops. For over 50 years, they have been giving young people everything they need to fuel their passion for engineering. [Find out more here.](#)

YouTube – Interview Practice Channel

Powered by *InterviewBot*, you can choose any of the subjects and get started with your interview practice journey. You can use the interview question compilations from each subject, or if you would like to only answer the individual questions, just go to the subject playlist and they are all there. You can even create your own unique playlists by adding different individual questions together. [Click here](#)

What University? What Career?

Live on-demand video series. Using this brand-new video series, students can navigate the post-school options, find out how to get started with applications and avoid some mistakes; **free, on-demand, short videos.** [Click here](#)

Competitions/Ad Hoc

Items in this section – and should you be a winner or a volunteer – can be used within personal statements, applications etc

Invasive Species Challenge

This is a fast-paced, creative STEM project that places at the heart of a real environmental mission - protecting UK rivers from invasive plant species. Made possible through *Inspiring Futures* partnership with [Canal & River Trust](#), students will investigate how species like Floating pennywort, Water fern, Japanese knotweed, and Himalayan balsam spread - and then design bold, innovative ideas to help stop them.

Students can choose one of three exciting routes:

1. Build Something

Invent a tool, gadget, or digital system to detect, map, or safely remove invasive species.

2. Change Behaviour

Design an awareness campaign - posters, videos, social media, or a whole-school strategy.

3. Organise Action

Create a plan for schools and communities to work together to monitor or manage the issue.

Important Dates

Submission Deadline: 5pm, 12 June 2026

Judging & Winners Announced: w/c 22 June 2026

From Imperial College, London - School Teams Prize 2026

For students in Years 12 & 13. Now in its sixth year, the Science in Medicine School Teams Prize aims to encourage students to think outside of the school curriculum about how science and engineering can improve health.

It is a team contest, which emphasises the importance of multidisciplinary collaboration. It also encourages a holistic approach with due consideration of the importance of affordability, availability and social acceptability of innovations, and has an emphasis on effective communication. This year there are five contests, focused on:

- The heart and circulation
- Lung disease
- Cancer
- Mental health of children and young people
- Global health

[Find out more and how to enter on the School Teams Prize webpage.](#)

Entries close Friday 03 July 2026, 5pm. For any queries email school-teams-prize@imperial.ac.uk.

From Neon Engineering:

[UK Junior Water Prize](#)

Conduct a water-based research project for a chance to win a trip to Stockholm for World Water Week. Closes 5th May.

[COYO Challenge 2026: Design a Sustainable Race Track](#)

Explore how engineering decisions shape safe, sustainable infrastructure and support communities. Until 4 September

[Individual Challenger Experiences.](#)

These engaging challenges will allow STEM loving students to complete a STEM based project from home and gain an [Industrial Cadets Challenger Award](#).

Who are these for? Students aged 11-16

How long will it take to complete a Project? Approximately 3 hours

How much do they cost? £25 per project

[Industrial Cadets - Individual Challenger Experiences](#)

Also, take a look at the re-running of:

[FUTURE SKILLS PROGRAMME: Careers in STEM](#) over the May Half Term. This virtual programme is designed to inspire students, broaden their understanding of STEM careers, and equip them with the skills and confidence needed to make informed choices and succeed in future applications and the workplace.

Who is this for? Students in Years 9-10

When is this course running? 26th-29th May

How long will it take to complete? Approximately 30 hours flexibly

How much will it cost? £50 (Fully funded bursaries are available for eligible students, criteria is [here](#)),

This course is perfect for students who:

Have an interest or curiosity in STEM, engineering, manufacturing, digital technology, or future careers

Would benefit from early exposure to real-world STEM pathways, including apprenticeships, technical routes, and university options

Are beginning to think about GCSE subject choices, post-16 options, or longer-term career ideas

May not yet see themselves in a STEM career but would benefit from inspiration, role models, and insight into local and regional opportunities

Are motivated to develop employability skills such as communication, networking, and professionalism

The course is suitable for all abilities — enthusiasm and curiosity are far more important than prior knowledge and at the end of the course, students will graduate as [Bronze-level Industrial Cadets](#), a nationally recognised award they can use as evidence of their experience to support future applications and career journeys.
