College/University Information

CRE8 Open Event

What is CRE8? - CRE8 delivers a modern industry-informed Level 3 Creative programme (equivalent to 3 A Levels) where students learn through real projects, practical work and portfolio building - not just sitting in classrooms.

Students develop skills linked to fast-growing modern careers such as:

Film, TV & Video Production

Photography & Visual Storytelling

Graphic, Digital, Product, Fashion & Brand Design

Interior, Spatial, Architecture & Environmental Design

Game Design, Gaming, Animation, VFX & Interactive Media

Social Media, Advertising & Digital Marketing

Podcasting, Audio Production, Music & Broadcasting

Events, Travel, Tourism & Experience Industries

Sports Media, Journalism & Content Creation

This is ideal for students who want to create, design, produce and build something real.

Why Students Choose CRE8

Practical learning instead of heavy exam pressure

Real projects and industry-style briefs

Build a portfolio for future careers

Smaller learning environments with more support

Learn modern skills employers value

Strong progression to university, apprenticeships or employment

Inspiring learning environment at Woodside Stadium

Upcoming Events - Online Introduction Evening

Monday 18th May – 7:00PM - Join us online to discover:

How the course works, Career opportunities, Why CRE8 is different, September 2026 or 2027 entry, Q & A

On-Campus Taster Event - Tuesday 26th May – 2:00PM Woodside Stadium, Dunmow Road, CM23 5RG

Come and experience CRE8 first-hand:

Meet the team, Explore the environment, Participate in creative activities, See if CRE8 feels right for you

Register Your Place Please complete the form to attend: <https://forms.gle/a1JRi2C4KPLXgCBg6>

Info From Our Link Cambridge University College, Gonville & Caius

Each spring, they run a programme of virtual Subject Taster Evenings for year 12 at UK state (non-fee-charging) schools and colleges. They feature the chance to meet the Directors of Studies, hear from students, and experience a taste of Cambridge-style teaching. They encourage prospective applicants to sign up for as many subjects as you like as attending more than one subject evening can help inform your eventual subject choice. If you're unfamiliar with any of the subjects listed below or would like to learn more about them, you can read their [subject profile](#).

A full timetable of the sessions is available here: <https://www.cai.cam.ac.uk/access-outreach/schemes-and-events/subject-taster-evenings>

Please register your interest via the Qualtrics form. Sign ups are now open and will close at 23:59 on Thursday 7th May. https://cambridge.eu.qualtrics.com/jfe/form/SV_8crD7Bc6LB5jsGy

Unifrog – Global Virtual University fair - Wednesday 3 June.

Students can meet over 30 top universities from around the world, including McGill University (Canada), IE University (Spain), Imperial College London (UK), and Hong Kong PolyU (Hong Kong).

The fair is free to attend and ideal interested in studying abroad. Students are welcome to drop in for just one or two sessions, or they can stay for the full fair. [Sign up here](#)

UCAS Extra & Clearing

5RB Chambers, Media Law Insight Evening and Work Experience Placement

BVL is once again partnering with media law barristers' chambers, [5RB](#), to offer our students two exciting opportunities:

1. A virtual media law insight evening, open to students across England and Wales, taking place between 5 and 7pm on a date to be confirmed in October 2026.
2. In person work experience for two students, taking place during a week TBC in February 2027.

To be eligible to apply for a work experience placement, students must first attend the insight evening.

5RB is a leading set of media and communications law barristers who practise in all areas of media law including: defamation, privacy, confidence, data protection, harassment, media regulation, intellectual property, sport and human rights.

To apply complete a brief application form by clicking [here](#). Applications close at **7pm on 11 September 2026**.

Model Law Commission

Now in its 15th year, the Model Law Commission is a four-month long project that provides A-Level students with the chance to simulate the work of the Law Commission. We split the pool of students into four groups, each tasked with the reform of one of the following areas of law: (1) Family, Trusts or Land Law; (2) Criminal Law; (3) Commercial and Common Law; or (4) Public Law. From September to December, students undertake a five-stage process: research, formulating recommendations, consulting with their peers, reporting on their proposals and devising their legislation.

Each year, the Model Law Commission begins with a two-day in person conference in London. It is over the course of these two days that students are introduced to their respective topics by experts in the field who come from all over the country to speak to them.

The students are also visited by individuals from the Law Commission itself visit our students and advise on the difficulties in reforming the law and how to write a law reform report. The students then take that information and over the following weeks discuss reform ideas with each other, their Group Leaders and their peers.

The project then concludes with a final in person report launch event in London in January, hosted by MPs and visitors from the Law Commission. At the event, each student will receive a printed and published copy of their group's reform report.

If you are interested in learning more about the way law works in the UK, the way it is made and changed, then you are strongly encouraged to apply. The project will take place between September 2026 and January 2027.

To apply, please complete a brief application form by clicking [here](#). The deadline for applications is **7pm on Friday 11 September 2026**. For more information go to: <https://www.bvl.org.uk/model-law-commission>.

Meet the Medic Online Webinars: For students in Years 10 to 13 interested in Medicine

Have you ever wondered what it is really like to be a doctor in London? Following on from the success of 'Meet the Researcher', this new interactive webinar series will bring medicine to life.

'Meet the Medic' will have a different medical professional each month sharing their specialism, career path and day-to-day life as a doctor - and answering your questions live.

This month, there will be internationally renowned liver specialist Professor Shahid Khan. Then in May, there's Dr Caroline Scott-Lang sharing stories from her time working in paediatrics. [Find out more and register to take part in these exciting webinars on this Webinar Series page](#). For any queries please email pathways@imperial.ac.uk.

National: UK's Intelligence Agencies, Virtual Insight Session

The UK Intelligence Agencies, MI5, MI6 and GCHQ, work together to keep the country safe. Their highly trained staff use cutting edge techniques to uncover and stop plans to harm our people, buildings and computer systems, both in the UK and around the world.

- **This Insight Session is Wed 13th May 3:30PM - 4:30PM**

The **Essex County Council Career Guide 8** is packed with opportunities, advice, and local insights to help you plan your next steps. **Inside, you can find pages like:** Sustainable job opportunities in sectors like energy, a guide to help you find your way around Essex, including different school and training provider locations, Pathways into apprenticeships, training, and higher education, Real career stories and case studies for inspiration, Support available to help you into work, The top skills that recruiters are looking for. [Click the button](#) to explore the guide.

Smallpiece Trust

The Smallpiece Trust is an educational charity that inspires young people to pursue careers in science and engineering through events and workshops. For over 50 years, they have been giving young people everything they need to fuel their passion for engineering. [Find out more here](#).

YouTube – Interview Practice Channel

Powered by *InterviewBot*, you can choose any of the subjects and get started with your interview practice journey. You can use the interview question compilations from each subject, or if you would like to only answer

the individual questions, just go to the subject playlist and they are all there. You can even create your own unique playlists by adding different individual questions together. [Click here](#)

What University? What Career?

Live on-demand video series. Using this brand-new video series, students can navigate the post-school options, find out how to get started with applications and avoid some mistakes; **free, on-demand, short videos.** [Click here](#)

Competitions/Ad Hoc

Items in this section – and should you be a winner or a volunteer – can be used within personal statements, applications etc

Supreme Court Mooting (legal debate) Competition

From BVL who offer students the opportunity to compete in their Mooting Competition in association with the Supreme Court. A "moot" simulates a court hearing (usually an appeal), in which participants analyse a fictional case, research the relevant law, prepare written submissions and then present an oral argument.

If you are selected to participate in the competition, you will be paired up with current law students, including students on the Bar Professional Training Course (the course people undertake to become a barrister), who act as "Mooting Mentors". This structure enables you to not only experience court advocacy, but also develop your knowledge of the law and nurture your communication skills with the help of those already pursuing a career in law.

The competition takes place between 6.30 and 8.30pm, starting with a training session, where you will be taught all about mooting. The 2027 competition runs every Thursday evening between 4 February and 22 April 2027, with the final (which is judged by a Supreme Court Justice) taking place on a date to be confirmed in April 2027 between 4:30 and 7pm. To apply complete a brief application form by clicking [here](#). The deadline for applications is **7pm on Saturday 2 January 2027**. We recommend that students apply as soon as possible.

More information can be found here: <https://www.bvl.org.uk/mooting-competition>.

Competition From Sheffield University - The Kroto Prize: A Creative STEM Video Competition for Students

Looking for a way to spark curiosity, creativity, and real engagement in STEM? The Kroto Prize offers a fantastic opportunity to showcase student talent while celebrating the legacy of Nobel Prize-winning chemist and University of Sheffield alumnus, Professor Sir Harry Kroto. This competition invites schools and colleges to submit one student-created short video explaining a topic from Science, Technology, Engineering or Mathematics. It's a chance for young people aged 11-18 to explore big ideas, think differently, and communicate science in ways that inspire others. Prizes of up to £300 are available, shared between the winning student(s) and their school. The closing date for entries is Monday 29 June. If interested, make an approach to your teachers of STEM or to the careers dept.

Invasive Species Challenge

This is a fast-paced, creative STEM project that places at the heart of a real environmental mission - protecting UK rivers from invasive plant species. Made possible through *Inspiring Futures* partnership with [Canal & River Trust](#), students will investigate how species like Floating pennywort, Water fern, Japanese knotweed, and Himalayan balsam spread - and then design bold, innovative ideas to help stop them.

Students can choose one of three exciting routes:

1. Build Something

Invent a tool, gadget, or digital system to detect, map, or safely remove invasive species.

2. Change Behaviour

Design an awareness campaign - posters, videos, social media, or a whole-school strategy.

3. Organise Action

Create a plan for schools and communities to work together to monitor or manage the issue.

Important Dates

Submission Deadline: 5pm, 12 June 2026

Judging & Winners Announced: w/c 22 June 2026

[Find out more and enter here](#)

From Imperial College, London - School Teams Prize 2026

For students in Years 12 & 13. Now in its sixth year, the Science in Medicine School Teams Prize aims to encourage students to think outside of the school curriculum about how science and engineering can improve health. It is a team contest, which emphasises the importance of multidisciplinary collaboration. It also encourages a holistic approach with due consideration of the importance of affordability, availability and social acceptability of innovations, and has an emphasis on effective communication. This year there are five contests, focused on:

- The heart and circulation
- Lung disease
- Cancer
- Mental health of children and young people
- Global health

[Find out more and how to enter on the School Teams Prize webpage.](#)

Entries close Friday 3 July 2026, 5pm. For any queries email school-teams-prize@imperial.ac.uk.

From Neon Engineering:

UK Junior Water Prize

Conduct a water-based research project for a chance to win a trip to Stockholm for World Water Week. Closes 5th May.

COYO Challenge 2026: Design a Sustainable Race Track

Explore how engineering decisions shape safe, sustainable infrastructure and support communities. Until 4 September

Individual Challenger Experiences.

These engaging challenges will allow STEM loving students to complete a STEM based project from home and gain an **Industrial Cadets Challenger Award**.

Who are these for? Students aged 11-16

How long will it take to complete a Project? Approximately 3 hours

How much do they cost? £25 per project

Industrial Cadets - Individual Challenger Experiences

Also, take a look at the re-running of:

FUTURE SKILLS PROGRAMME: Careers in STEM over the May Half Term. This virtual programme is designed to inspire students, broaden their understanding of STEM careers, and equip them with the skills and confidence needed to make informed choices and succeed in future applications and the workplace.

Who is this for? Students in Years 9-10

When is this course running? 26th-29th May

How long will it take to complete? Approximately 30 hours flexibly

How much will it cost? £50 (Fully funded bursaries are available for eligible students, criteria is [here](#)),

This course is perfect for students who:

Have an interest or curiosity in STEM, engineering, manufacturing, digital technology, or future careers

Would benefit from early exposure to real-world STEM pathways, including apprenticeships, technical routes, and university options

Are beginning to think about GCSE subject choices, post-16 options, or longer-term career ideas

May not yet see themselves in a STEM career but would benefit from inspiration, role models, and insight into local and regional opportunities

Are motivated to develop employability skills such as communication, networking, and professionalism

The course is suitable for all abilities — enthusiasm and curiosity are far more important than prior knowledge and at the end of the course, students will graduate as **Bronze-level Industrial Cadets**, a nationally recognised award they can use as evidence of their experience to support future applications and career journeys.

Programmes - The Future Skills Programme: Careers in STEM

From Imperial College, London School Teams Prize 2026 For students in Years 12 & 13

Now in its sixth year, the Science in Medicine School Teams Prize aims to encourage students to think outside of the school curriculum about how science and engineering can improve health.

It is a team contest, which emphasises the importance of multidisciplinary collaboration. It also encourages a holistic approach with due consideration of the importance of affordability, availability and social acceptability of innovations, and has an emphasis on effective communication.

This year there are five contests, focused on:

- The heart and circulation
- Lung disease
- Cancer
- Mental health of children and young people
- Global health
